

PAWS IN JOBBLAND

The Iowa College Student Aid Commission (Iowa College Aid) is reaching out to Iowa's youngest students in its mission to ensure a successful future for all Iowans with Paws in Jobland, an online career awareness program. Elementary students can build self-awareness, identify personal interests and explore the world of work with the click of a button.

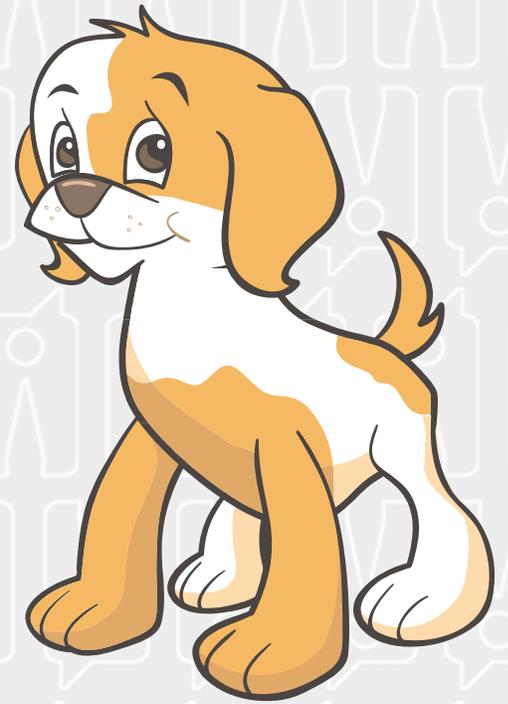

INTRODUCING PAWS

Paws in Jobland is a career and education exploration tool designed with elementary students in mind. Through this program, kindergarten through fifth grade students can explore over 100 different career possibilities with the help of the program's canine tour guide, Paws. With Paws help, students can see the connection between school and work and the possibilities for their future.

DISCOVER THE WORLD OF WORK

Students discover the world of work through an adaptable system which addresses multiple learning styles and encourages them to learn more about themselves and the people that make up their neighborhood. Educators can easily integrate Paws in Jobland into their classroom with free worksheets and lesson plans found at www.IHaveAPlanIowa.gov within the "For Educators" section. In addition, online access for parents extends the program beyond the classroom and into the student's home.

FREE ACCESS

Paws in Jobland is an addition to the statewide web portal, I Have A Plan Iowa™. The portal is a free resource for individuals to research career opportunities, explore education options, and learn how to use education to meet career goals. Students using Paws in Jobland can access the system without creating an account or signing in. Simply select "Elementary Student" on www.IHaveAPlanIowa.gov.
